

## RAFTING ON RIVER TARA

### TARA - "TEAR" OF EUROPE

Tara is the longest river in Montenegro (144km) which is consisted of two rivers Opasnica and Verusa and with river Piva from Scepan polje makes Drina. It has made one of the biggest canyon-valleys in the world which is long 80 km and high over 1300 metres.

River Tara is the famous one and in the recent time for rafting by rubber boats. During the month of June the categorisation of rivers by their level of attractiveness for rafting is carried out. Tara was marked by 3-4 (coming just after Colorado and other the most attractive rivers in the world which categorisation is up to 5). Thus it appears to be on the very top of the worlds famous rafting rivers according to its attractiveness and adventure it can provide.

We offer one-day, two and three-day rafting arrangements (packages) on the Tara River.

One-day arrangement includes rafting the Brstanovica (place 15 km upstream from Scepan Polje) to Scepan Polje. This is the most attractive part of the river for rafting. For this rafting our boats are provided. Our people know every stone and every swirl Tara and completely safe to walk you through the cascades and rapids of mountain beauty.

#### ONE-DAY PROGRAM RAFTING

- Arriving at Scepan polje – 10:30 a.m.
- Off road driving to Brstanovica.

Start rafting around 12:00 hours, and we soon found a buk Brštanovica. Follow us Borovi, another series of rapids, in many ways the most attractive on the whole our journey. The following is Celije, and after him more and Upper and Lower Vjerinovića cascades that Tara has the highest decline, and many are beautiful. After the excitement of coming to camp Grab one of the most beautiful camps in the whole course of the River. Grab the camp we will relax and make a break for lunch.

Lunch is about 14 hours, Swedish table. Aperitif, appetizer, lamb roast meat below, under the iron pan fries, homemade bread under the meat, salad and dessert.

## K-2 RAFTING CLUB -Nikšić

Departure from the camp about 3:30 p.m. Now we follow a break in a peaceful way. We'll get to the place Uzlup. Here are the remains of the log dam, which was used in ancient times when Tara transported lumber. By the end of our time must pass another series of rapids, five, six, which will help us carry through our experience.

Arrive at Scepan polje about 5 p.m. hours, where our adventure ends.

(During the rafting we will, depending on weather conditions and the mood of guests to make a short or long break in any place suitable for swimming, fishing, refreshments, etc., so that the precise timing will depend on travel.)

Return Piva canyon, with a tour of the dam (220 m high), in addition Piva lake (length 42 km) and Piva Monastery (16 century).

In the price of this arrangement is included:

- Transport from Scepan Polje to Brstanovica
- The prescribed fee for rafting and tourist tax
- Insurance
- Lowering the Tara river in rubber boats
- Lunch (Swedish table)
- All rafting participants are equipped with belts (life-jacket), neoprene suit, neoprene boots and, if desired, and sculls.
